2019 National Endowment for the Arts (NEA) Research Lab

UC San Diego PIs Drs. John Iversen, Tim Brown, and Terry Jernigan, in partnership with San Diego Children's Choir and Vista Unified School District, will study the potential effects of musical interventions on early childhood development. They will conduct the Early Academic Readiness and Learning Intervention - longitudinal intervention trials of vocal music in preschool aged children, testing if music has impact on school readiness, cognition, and emotion. [Read the press release!](#)

4/1/19 - 3/31/22

Additional Description:

University of California at San Diego - La Jolla, CA - \$300,000

The University of California/San Diego, in partnership with San Diego Children's Choir and Vista Unified School District, will establish a group of studies to trace the potential effects of various musical interventions on early childhood development. The goal is to identify and relate those effects to age, status of brain development, and genetic variation. Lab activities begin with a feasibility study with Children in Transitional Kindergarten (pre-kindergarten) classes who participate in a daily singing program. The children will be assessed on their cognitive, emotional, social, academic, and music skills. Following the feasibility study, the research will test various hypotheses about musical experiences during childhood. This lab leverages the team's deep experience in music and large-scale longitudinal child development studies, bridging such disparate fields such as cognitive and developmental psychology, neuroscience, musicology, and education. The lab also will assist the Arts Endowment in pursuing data collection and analysis within the Adolescent Brain Cognitive Development (ABCD) study, of which the agency is a sponsor.

Symposia and Conferences

Title: 29th EEGLAB Workshop,

Date: June 17-21, 2019

Presenter: Arnaud Delorme, Scott Makeig, Robert Oostenveld, Cyril Pernet, Tracy

Brandmeyer, Ramon Martinez, Tim Mullen

Location: Aspet, France Number of Participants: 49 Participants
